Why Choose Troy Repel-X?

Safeguards your pet against flies and biting insects.

- ✓ **New, effective and safe formulation** suitable for dogs, horses, cattle and pigs:
 - **Proven fly repellency** up to 12 hours.
 - **Repellence of other biting insects** up to 4 hours.
 - **Laboratory trial showed 75% knockdown** of flies and 57% knockdown of biting insects 12 hours after treatment.*
- ✓ **Can be sprayed** onto a cloth and applied onto the pet's sensitive areas such as the head or around wounds.
- ✓ **Available in 500 mL.**
- ✓ **Australian Made.**

How To Use Troy Repel-X?

Dosage and Administration:

Spray the animal lightly for a few seconds with a sweeping motion from head to rear. Apply twice daily when infestations are severe. Avoid getting spray into animals' eyes. For animal sheds, spray the inner walls thoroughly and any other place where flies and insects settle. Re-spray as necessary. If irritation occurs discontinue use – consult a veterinarian.

Administration Route: Topical.

Withholding Period: Meat and milk: Zero (0) days.

Trade Advice – Export Slaughter Interval (ESI):

An ESI has not been established for this product. Note – observing the meat withholding period may not be sufficient to mitigate potential risks to export trade. Trade advice should be sought from the manufacturer on (02) 8808 3600 before using this product.

First Aid: If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131 126.

Additional User Safety Information:

Product should not be used near plastic materials or fabrics like rayon acetate.

Storage Conditions: Store below 30 °C (room temperature).

Please refer to the label for full product information.
